GIRL CHILD PROJECT

Introduction

In a world where dreams know no gender, the Baba Haidakhan Girl Child Project stands as a beacon of hope and empowerment for underprivileged girls in India. Haidakhandi Samaj is dedicated to breaking barriers and paving the way for a brighter future through education, empowerment, and support.

Mission:

Our mission is clear - to ensure that every girl, regardless of her socio-economic background, has the opportunity to receive a quality education, pursue higher studies, and build a life of her own choosing. We believe that education is the key to unlocking a world of possibilities, and every girl deserves the chance to dream big.

Programs and Initiatives

School/College Education:

Providing access to primary and secondary education for girls in underserved communities. Awarding scholarships to talented and deserving girls to pursue higher education. Partnering with educational institutions to facilitate mentorship programs and career guidance.

Women Empowerment:

Certified ophthalmic paramedic (COP) in this programme, we induct girl students from poorest sections of society who because of their financial constraints are not able to study further. We provide them 2 years training in our hospital in different areas concerned (both clinical and non clinical) . This training is completely free of cost and students are provided with a basic stipend to meet their basic needs. After 2 years, they are given certificate of training which is valid as an ophthalmic assistant degree all over the country. Post the course, we provide employment in our own set up and recommend them to other hospitals.

Preventing Child Marriage:

Raising awareness about the harmful effects of child marriage on girls' well-being. Implementing community-based interventions to prevent early marriages and provide support for at-risk girls. Providing counseling & financial help to the girls who are eligible and hail from poor families. Haidakhandi Samaj has supported more than 50 girl's marriages

Basic Education

Basic education is essential for a girl child in India for numerous reasons, and it plays a critical role in her personal development as well as the overall progress of mankind.

Haidakhandi Samaj plays a crucial role in promoting girl child education, particularly in regions where access to education may be limited.

The urban female literacy rate is 64 percent and rural women's literacy rate is half of it, i.e., 31 percent. In India, many states have large rural-urban differences in female literacy to the homes of their husbands. Girls are marginalized and are out of school simply because they are girls and it is not the cultural norm.
